Whilst you're relaxing under our LED, which is where your cells health will be kick started and primed for the next steps, your therapist will write up your full home care prescription and treatment recommendation.

You are under no obligation to take up the recommendations but be mindful that results do come with a commitment and the speed of your results are linked to your commitment.

CONSULT & FACIAL - \$200 **\$50 is redeemable on products**

ABOUT MANY FACES AESTHETICS.

Many Faces Aesthetics was established in 2011. Since it's started, the clinic has excelled at blending the best in classic beauty treatments with cutting-edge technology and advanced grade skin care.

Specializing in skin treatments for all, our experienced therapists are highly skilled and knowledgeable in all things skin! We are not just another beauty salon.

Through extensive consultation we will discover underlying issues both on the surface of the skin and throughout the body which may influence many skin issues and from that point we can tailor your treatment plan, including prescribing products in our O Cosmetics, Ginger & ME & DP Dermapen World ranges to maintain your results at home. Our skincare brands are all Australian owned & made, which is something that is very important to us.

We choose to complement our treatments and home care products with nutritional supplements, as we believe in the link between diet and poor gut health with the manifestation of many skin conditions.

We offer you everything from relaxing facials through to results-driven corrective treatments such as medical grade facials, Oxygen Facials, LED Phototherapy, Dermapen Skin Needling, IPL and Cryopen removal of all lesions including warts and skin tags.

Our therapists work closely alongside our visiting Cosmetic Doctor & Nurse practitioner to provide treatments that can maximise the results achieved with Anti Wrinkle and Dermal Filler Injectable treatments.

The clinic also specialises in classic beauty treatments such as precision brow shaping, tinting of the brows and lashes, the lash lift, spray tanning, makeup body waxing for both men and women.
